Work experience

GfK GmbH

Nürnberg, DE

Senior Site Reliability Engineer

1st Nov. 2021 – present

- Architected Cloud-Native solutions
- Enabled Engineers that seek guidance/support by simplifying processes, fostering communication, and nurturing collaboration
- Led initiative to onboard projects to container orchestration platform
- Built Cloud Native mindset by incentivizing industry best practices
- Implemented SLI/SLO/SLA frameworks to certify apps as production-grade
- Consulted Engineers on delivering production-grade applications with instrumentation baked-in

GfK SE

Nürnberg, DE

Site Reliability Engineer

1st Nov. 2018 – 1st Nov. 2021

- Mastered Kubernetes from the ground up, gaining hands-on experience
- Adopted a security-first mindset
- Gained a much more pragmatic mindset by learning the importance of *Application Instrumentation* and how to distinguish signal from the noise in *Applications and Systems monitoring*

Gameloft

Bucharest, RO

DevOps Engineer

5th Sept. 2016 – 31st Oct. 2018

- implemented Infrastructure as Code
- Applied Configuration Management best practices
- Implemented CI/CD processes
- Mastered Container Orchestration
- Configured/Managed cloud Infrastructure
- Performed System Administration for both on-premise and Cloud Infrastructure
- Encouraged communication between siloed departments

MarketsWorld

Bucharest, RO

System Administrator

1 Jul. 2016 – 5 Sept. 2016

Implemented SMS alerting for Nagios using Twilio.

MarketsWorld

Bucharest, RO

Ruby on Rails Developer

1 Mar. 2015 – 1 Jul. 2016

- Implemented features using Agile methodologies on a Forex trading platform built on Ruby on Rails.
- Learned the basics of working with UNIX/Linux systems by debugging the Rails server on a Debian machine.
- Containerized all microservices composing the Ruby on the Rails application stack
- Automated the local development via Bash scripts that deploy all necessary containers.
- Became a **git** (VCS) power-user

SC.COMPLET IT.SRL

Giurgiu, RO

Entrepreneur

Sept. 2010 – 1 Jul. 2016

Launched a Web Design/Development startup for deploying websites for numerous clients.

Recent certifications

CNCF

Certified Kubernetes Administrator
verify credentials

29th Aug. 2021 – 10th May 2022

Google Cloud Platform

Professional Cloud Architect
verify credentials

4th Dec. 2020 – 4th Dec. 2022

Training

Telecom Academy

Java - Distributed Systems certification, EQF Level 6

Bucharest, RO

10 Sept. 2014 – 7 Feb. 2015

Skills achieved:

- developing GUI applications, multi-threaded apps, MySQL/Oracle database design
- apply security principles in apps communication protocols
- implement standard communication protocols HTTP, IMAP, POP3

UNCTAD - United Nations Conference on Trade and Development

Giurgiu

Entrepreneurial Training Workshop certification, EQF Level 6

7 Nov. 2014 – 15 Nov. 2014

Gained experience in becoming more efficient, establishing challenging objectives et. al.

Telecom Academy

Java Fundamentals certification, EQF Level 6

Bucharest, RO

26 May 2014 – 15 Aug. 2014

Crystal Mind Academy

Web Designer certification, EQF Level 6

Bucharest, RO

Jun. 2013 – Feb. 2014

Education

Faculty of Cybernetics Statistics and Economic Informatics - ASE

IT&C Security Masters Degree, EQF Level 6

Bucharest

2016 – 2018

Master thesis

IT&C Security Masters: The Security of Docker Containers

Supervisor: Lect. Dr. TOMA Cristian

Abstract: The default Docker configuration is not as secure as it seems, and requires some tweaking. UNIX capabilities, cgroups, SELinux are good assets for hardening the Docker Engine.

Languages

Romanian: native

German: B1

English: C1

Programming/scripting skills

Go, Python, Ruby, Bash/Shell, Groovy, Java

Technologies XP

Cloud: GCP, AWS

Config Management: Ansible, Puppet

Containers: Docker, docker-compose, containerd, Kubernetes, k3d

IaC: Terraform/OpenTofu

CI/CD: GoCD, GitLab CI, Jenkins

Other: Linux, Networking, VCS, Open-Source contributor
